I was a college grad studying to be an archeologist. I went to India to find art treasures.

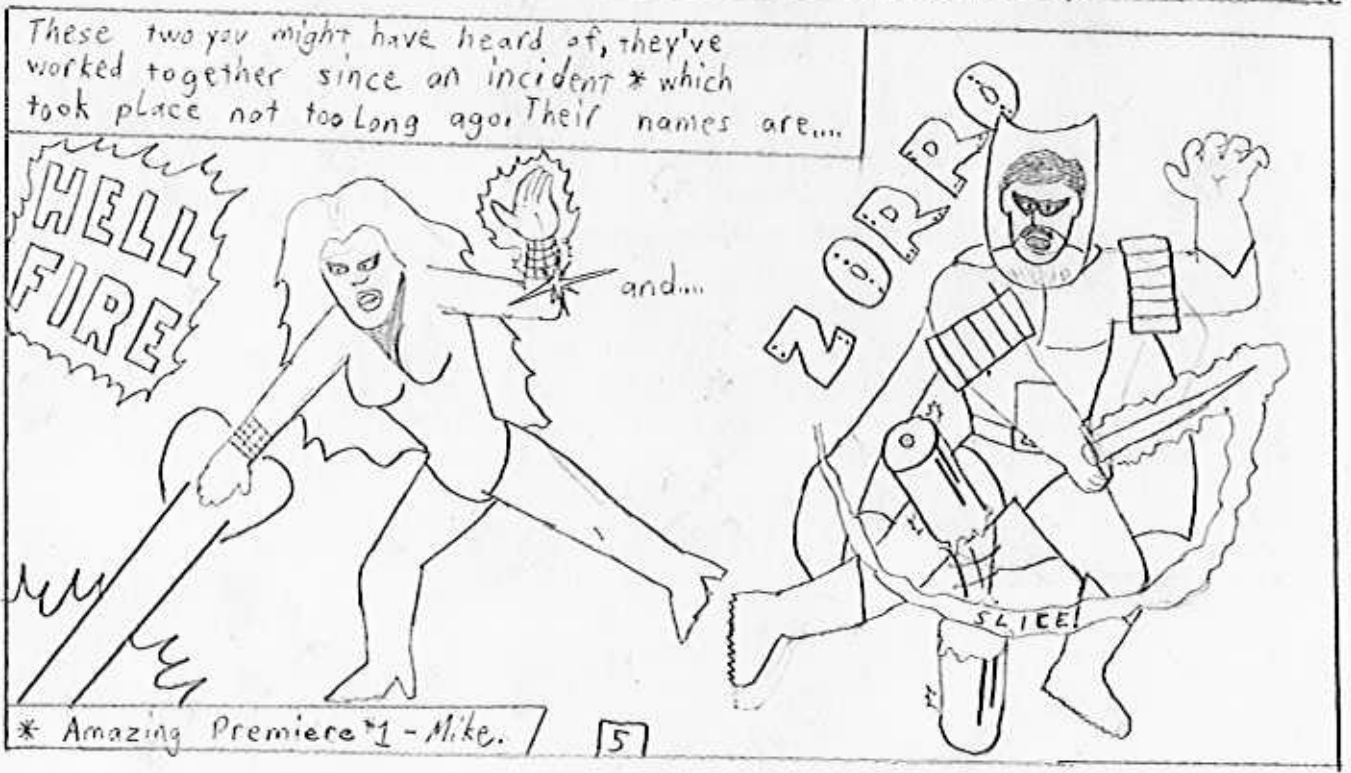

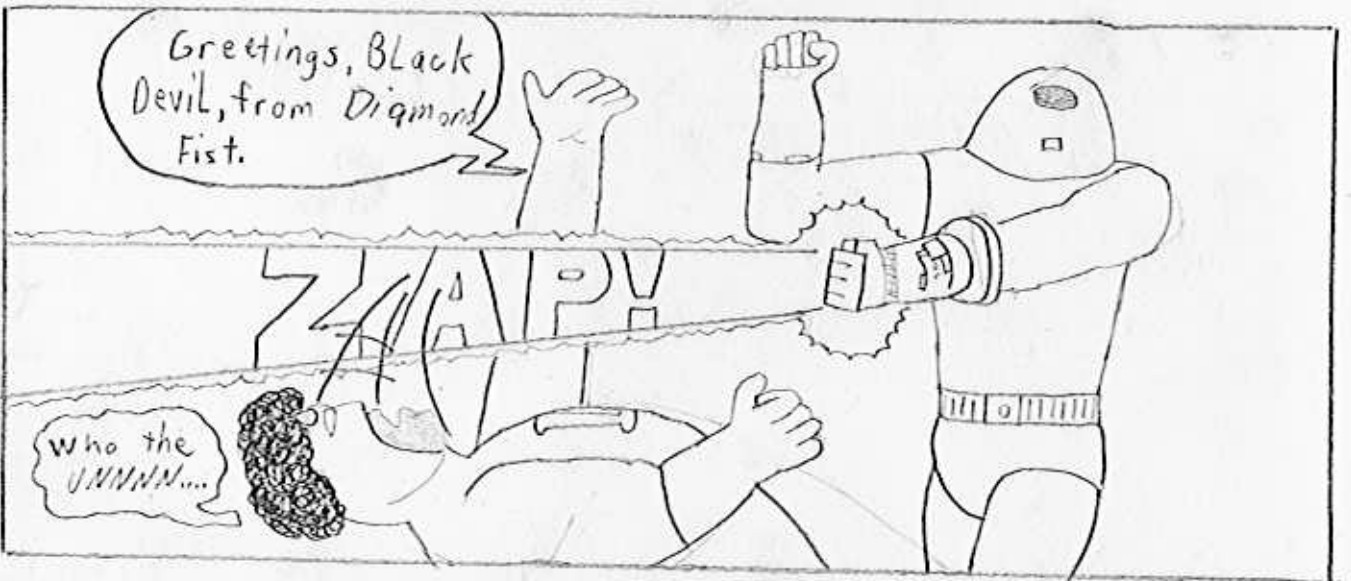

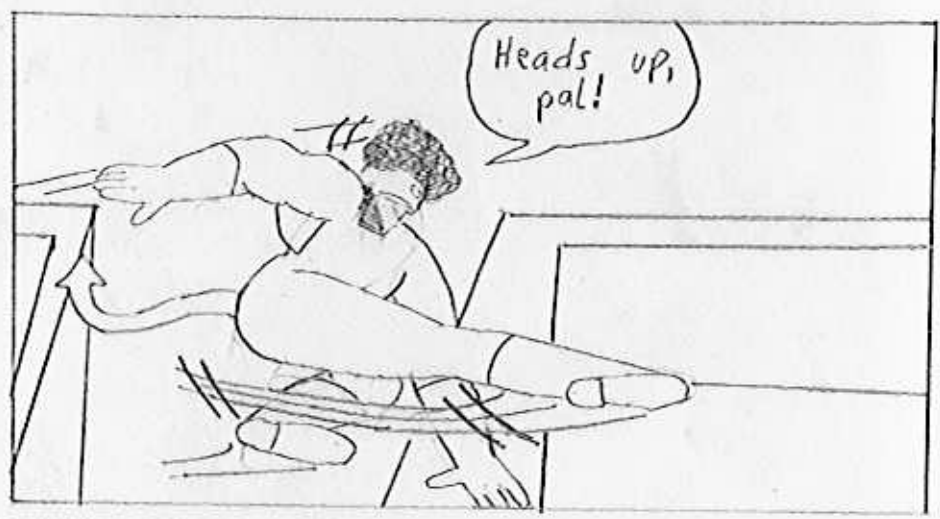

I found an idol, a devil idol with glowing eyes.

I gained many powers such as.....

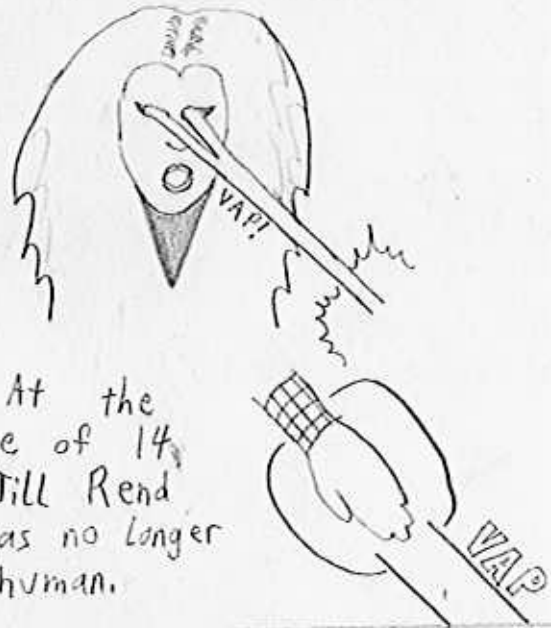

Hell Fire; a mutant, born with powers only a nova can immitate.

Also, solar blasts from her eyes and hands.

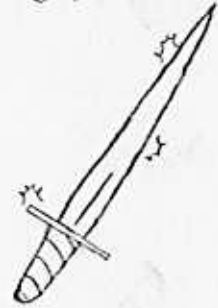

At the age of 14, Jill Rend was no longer human.

Zorro; Mark Garcia, a Spanish Prince took fencing, karate, judo.

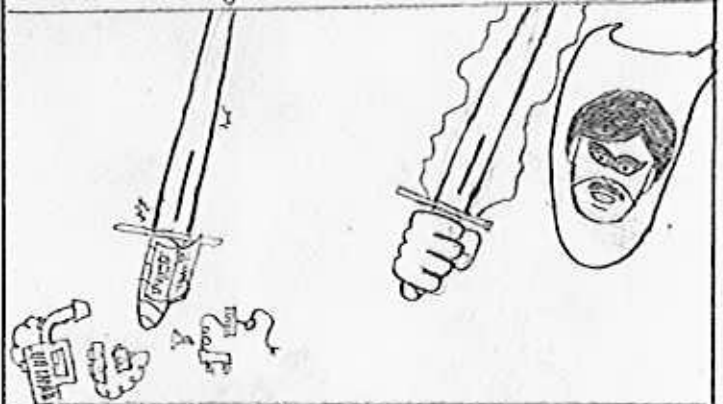

At 18 he won the silver sword.

at 19 he left for New York to study art; only to find his girlfriend murdered by thugs. He took it hard.

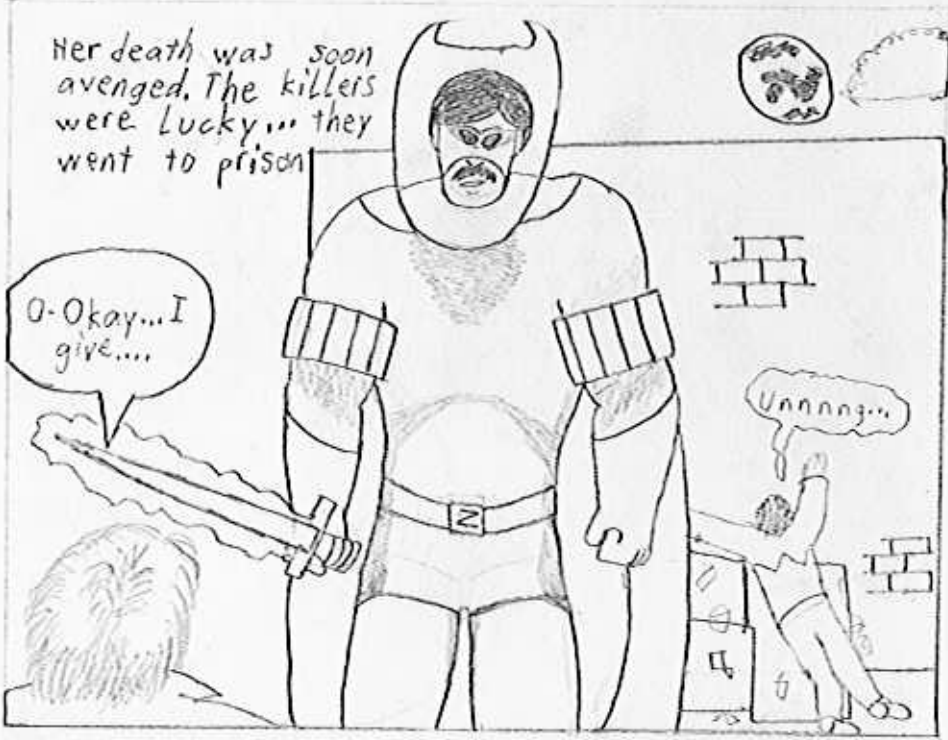

Mad with vengence he decides to take revenge with his silver sword.

6 Not to mention his flash costume

Her death was soon avenged. The killers were lucky... they went to prison

O-Okay... I give....

Uuuuuuu...
